RESERVED PARKING SPACE GUIDELINES

Pursuant to City Ordinance 14.142, Sec. 322-69

A. The City of Jersey City may, for good cause shown, establish by ordinance restricted parking zones in front of or near residences occupied by disabled drivers provided that such parking is not otherwise prohibited and does not interfere with the normal flow of traffic. No restricted parking zones will be established for persons who do not transport themselves and who do not possess a valid "handicapped person" identification card and placard or license plate issued by the State of New Jersey, Motor Vehicle Commission, pursuant to N.J.S.A. 39:4-205 AND 4-206 unless the Municipal Council determines that:

(1) The non-disabled driver resides in the same household as the disabled person and is a member of the immediate family of the disabled person (documentation must be provided).

(2) The disabled person needs to be transported at least five (5) days per week to work, school, or other educational or gainful activity. (Documentation must be provided detailing where, when and why the disabled person is transported).

(3) the disabled person's disability is such that it would preclude the disabled person from waiting on the sidewalk until the non-disabled driver arrives with the car or finds parking (documentation must be provided detailing the extent of the disability).

(4) The parking conditions in the disabled person's immediate neighborhood warrant this exception; and

(5) A reasonable person would deem it highly unusual and unjust to deny a restricted parking zone even in light of the competing demands for parking spaces within a given neighborhood.

B. No restricted parking zones will be established for applicants who have a driveway, carport, garage or off-street space available for their use unless the Municipal Council determines that:

(1) Such driveway, garage or space cannot accommodate the driver's vehicle, or

(2) The driver has need of a specially equipped vehicle which cannot be reasonably accommodated by such carport, garage or space.

C. The term "disabled" means a condition wherein a person has lost the use of one or more lower limbs as a consequence of paralysis, amputation, or other permanent disability or who is permanently disabled as to be unable to ambulate without the aid of an assisting device or whose ambulation is otherwise severely limited. In any case, the severity of the mobility disability shall be similar to or approximate disablement by reason of amputation.

D. Notarized applications for the establishment of restricted parking zones shall be filed with the Division of Engineering & Transportation which shall investigate each application for compliance with subsection (a) The application shall be accompanied by a medical evaluation from completed by the applicant's personal physician. The person physician shall include a Certification stating that the applicant has a mobility disability as described in Section 322-77C of this ordinance. Application forms and medical evaluation forms can be obtained from The Division of Engineering, Traffic and Transportation. Thereafter, the Division shall notify the applicant when and where to report for a medical examination or, in the alternative, shall notify the applicant of the person to contact to arrange such medical examination. The examining physicians shall be selected by the Municipal Council Committee for Parking for the Disabled. The cost of examination shall be borne completely by the applicant. The applicant shall bring to the examination any and all medical or other documentation which he or she believes relevant to the applicant's medical condition. Such documentation may include, but will not be limited to X-ray reports, C.T. scan reports, cardiograms, hospital and surgical records, and attending physicians' reports. If the examining physician does not possess adequate documentation to verify the applicant's eligibility under Sec. 332-77C and cannot by examination alone verify such eligibility, the applicant may be rejected. **An application filed by a tenant shall also be served upon the landlord.**

E. The Committee may, at its discretion, require further medical documentation. Applicants shall bear the cost of any such further medical documentation required by the committee. The Committee shall report its findings and recommendations to the City Council. **The Committee shall not approve any application made by a tenant without written proof the landlord has received notice of the application.**

F. If the City Council so approves, The Director of Architecture, Engineering, Traffic and Transportation shall establish a restricted parking zone in front of or near the residence of the applicant and shall issue a permit which complies with N.J.S.A. 39:4-197.7. Only the motor vehicle for which a valid permit has been issued shall be parking in such zone and only when the permit is properly displayed. Only (1) permit shall be issued to the applicant. No restricted parking zones, other than those granted by the Police Department in emergencies, shall be approved except in the manner provided in this Ordinance.

F. No more than two (2) restricted parking spaces shall be granted at any one (1) building address where the building is comprised of six (6) dwelling units or less, and no more than three (3) disabled parking spaces shall be granted at any one (1) building address where the building is comprised of between seven (7) dwelling units and forty (40) dwelling units and no more than four (4) restricted parking spaces shall be granted at any one (1) building address where the building is comprised of more than forty dwelling units. At any address from which a disabled parking space or spaces have already been granted, any additional permits approved for that address shall bear the same permit number as exists for the space already granted. Such space or spaces may be used by anyone possessing the correspondence numbered permit on a first come, first served basis. This provision shall apply only to applications approved or denied after the effective date of this amendment.

H. Restricted parking spaces and permits shall be valid for two (2) years, and shall be renewed thereafter in accordance with the requirements of this Article. A permit may be reviewed earlier if conditions concerning the applicant change.

I. Any party denied a restricted parking zone shall have the opportunity to request reconsideration of such decision. A letter requesting reconsideration must be received by the Division within twenty (20) days of the date of the notice of denial. The applicant will then be instructed to report for a reexamination with an examining physician and/or in appropriate cases; the committee, or its designee, may hold a hearing to reconsider any relevant evidence pertaining to the applicant's eligibility. As in the initial medical examination, costs for this reexamination shall be borne by the applicant. It shall be the applicant's responsibility to bring to the examination any and all documentation in support of his or her condition. The applicant will be notified by mail of the decision on reconsideration. No more than one (1) reconsideration will be given each applicant. Thereafter, the applicant may reapply after one (1) year has elapsed from the date of the notice of denial.

J. Any party willfully presenting false information or documentation to the Committee or found to be abusing any parking privileges granted under this ordinance shall be subject to loss and/or denial of such privileges.
